

JODI 'JBJ' KANSAGOR

Full Stack Software Developer

Working with diverse communities has made me adaptable. Manipulating large data honed my analytical mindset. My years in marketing taught me to consider user experience. Learning to play roller derby as an adult taught me that I can do anything I put my mind to.

PROJECTS

Coffee + Cards Daily Tracker [site](#) // [github](#)

Tech: JavaScript, HTML, CSS, Node, Express, MongoDB, Mongoose

Daily tarot card tracker that allows the clients from my tarot card business to track trends in their card readings and store information for each card pulled.

Treks and Trails [site](#) // [github](#)

Tech: JavaScript, HTML, CSS, Node, Express, PostgreSQL

Created during a 5 day sprint, this app combines information from 5 different 3rd-party APIs to create informative front end hike and camping search site. My greatest contributions include integrating information between multiple API calls, front end filter and search logic and basic front end layout.

Markov Twain [site](#) // [github](#)

Node, Express, MongoDB, Mongoose, Javascript, HTML, CSS

This app was mob programmed during a 4 day sprint. Using Markov Chain predictive text logic, Markov Twain tweets new sentences based on the works of multiple classic authors.

HIGHLIGHTED EXPERIENCE

Individual Giving Manager, Big Brothers Big Sisters

2018 - 2019

- Raised over \$100,000 in the inaugural year of a peer-to-peer fundraising event
- Managed implementation of brand overhaul for agency

Development and Marketing Manager, Rose City Rollers

2015 - 2017

- Created development team and increased individual giving by over 100% in 2 years through fundraising appeals and monthly giving.

Research Analyst - GIS, State of Oregon,

2011 - 2012

- Using esri's ArcMap software, created a series of maps visualizing demographics associated with HIV positive populations in the state of Oregon.
